# H-TUFF SERIES CONNECTING RODS

## For FORD 4.6 Modular and 5.0L Coyote

- ▶ P/N 15042R-8
- ▶ ARP2000 bolts (3/8" diameter)
- ▶ Double ribbed pin surround
- ▶ Approximately 690 grams
- ▶ Held to the same quality standards and painstaking tight tolerances as all **Manley** rods
- ▶ Bridges the gap between our standard, proven H-Beams and top of the line, best of the best Pro Series rods
- ▶ H-Tuff delivers a stronger rod with greater safety margin to handle elevated boost and higher power levels for a modest price premium over standard H-Beams
- ▶ H-Tuff design incorporates increased cross-sectional thickness in critical areas
